I hereby request a prescription for medication(s) for my pet so that I can purchase these products from an internet pharmacy or catalog vendor. I have been informed that the following risks exist when I obtain these products from such sources.

- The manufacturer's warranty or guarantee for these products may not be available. This means if your pet's condition is not effectively treated with the products, manufacturers may not stand behind their products or product liability procedures. Additionally, the owners and doctors of this facility will be unable to assist you in claims against those manufacturers.
- There is a possibility that the prescription drugs received from these vendors may be counterfeit and may not have been approved by the FDA, and pesticides may not have been approved by the EPA. This has occurred in the past and could reoccur.
- Manufacture's rebates that would ordinarily be available for products purchased from this facility generally will not be available.
- The number of tablets or capsules, milligram size of the unit, volume and/or concentration of liquid, and number of authorized refills may differ from that prescribed by the attending doctor.
- When prescription products are purchased elsewhere, our staff members are unable to teach you how to administer them.
- As the provider of your pet's care, our medical records keep track of all drugs dispensed by us to you. When you purchase your prescriptions elsewhere, our tracking system is not activated to print instructions for use or risk of adverse events, or to send reminders for follow up exams and/or lab tests that may be needed to monitor results or adverse reactions.
- You may not have the prescription drug available soon enough to start your pet medications at the optimal time to provide relief for his or her condition.

I have read and understand the above information. I accept the risks, and I am aware that this facility cannot accept any financial responsibility for paying for or reimbursing me for any treatments required as a result of the use of these products purchased from these sources. In the absence of negligence, I agree to hold this veterinary practice harmless for any harmful or damaging effects, or lack of effectiveness of drugs purchased from any source other than this clinic.
